

Samar Hasnain

This section describes my early work at the NINA SRF, and how I developed research in structural biology at the SRS which became a major international programme. It contains 7 sections in chronological order.

[Early days](#)

[From the SRF to the SRS](#)

[The SRS for Structural biology](#)

[Collaborative Computational Projects](#)

[The International Community in Structural Biology](#)

[Interaction with the International Union of Crystallography](#)

[From the SRS to Diamond](#)

A document which contains all the above sections is [available](#)
